ProMarket Stamp of Approval

Harbour Island Records and ProMarket have had a long and mutually beneficial partnership for more than ten years. Harbour Island Records is not only one of the most reliable distributors in the market we operate in, but also one of the most innovative and forward thinking enterprises who are in our partnership chains. For the duration of our business relationship Harbour Island Records has always provided products that are rare in the market and has been able to make them staples for every Bulgarian household due to their excellent marketing planning and execution of their strategies. Even more valuable to us as point of sales locations is that both the marketing and sales teams at Harbour Island Records work in close proximity with our own staff and thus develop marketing plans that are tailored as much to our needs as they are to those of each and every customer.

Due to our past success and current excellent partnership we have implicit trust in the new brands and product categories that are offered to us by Harbour Island Records and are always ready to open our shelves for the goods they distribute in our territory.

With the "ProMarket Stamp Approval" we therefore certify that Harbour Island Records is an excellent partner not only for local points of sale locations but also for international partners who are seeking entry into the marketplace in Bulgaria. You will not find a better partner who can bring your vision and brand into the market and turn it into a household staple for every local home.

Sincerely,

ProMarket Bulgaria

Theodor Savov

A circular stamp with the text "ПРОМАРКЕТ" (ProMarket) in the center and "БЪЛГАРИЯ" (Bulgaria) around the perimeter. A signature is written over the stamp.
